

## **Scholar: Revision and Grade improvement.**

Dear student,

You are now in the final approach to important examinations, the results of which are likely to affect your future progress.

There is still time to improve your chances of success. Follow the instructions given to you by your teacher / lecturer and plan your revision strategy.

Scholar is a valuable – and free to use- resource which will help you to consolidate your previous learning, offer you useful revision strategies and allow you to practise assessments.

Your teacher can use the Scholar reporting facility to tailor their future help to you.

Make the most of Scholar by using it as part of your mix of study / revision activities.

Even if you haven't been in the habit of using Scholar for your coursework so far, then make sure that you have a note of your user name and password. You will find Scholar helpful in your revision.

By using your own username (your SCN) and password you will gain access to many of the features in Scholar.

These include the Web pages, Revision planner, Interactive activities, Glossary, and recordings of revision webcasts (for maths, Computing and Modern Languages). Most Scholar courses have .pdf Study guides (electronic copies of the website text) which you can obtain from your teacher.

## Revision planner

The Scholar Revision planner is accessed through the left hand navigation panel. Pick your course, unit and topic and place it in the revision planner at the appropriate date and time.

The revision will then create hyperlinks to the work and give you a reminder on the correct day. For non-Scholar subject you can add a free text reminder to the Revision Planner

## Quick Search

You can do a quick search for your topic to find results appropriate to your level of study.

Select your course e.g. H Physics and then type in your search criteria e.g. interference

**Activities** are available to illustrate teaching points. The type of activity depends upon the particular course. It could be a flash animation, video clip, cloze passage or mp3 file etc.

Activities are accessed from the Additional tools navigation box at the left hand side of the page once you have selected a course. The activities (including some assessments) are listed in course order. Simply click on the hyperlink to go to activity.
